

# GLOBAL HEAT HEALTH INFORMATION NETWORK

Linking local knowledge and solutions globally  
to address the challenges of extreme heat and human health

# What are we doing in 2019?

- Develop Meeting and Synthesis Report
- Disseminating outcomes: in various publications, side-events on Heat to UNISDR Global Platform/MHEWS Geneva May 2019, other
- Consensus statement and recommendations to WMO and WHO
- Following up with partner organizations identified at the Forum on specific collaborative activities
- Action Plan and setting the Network steering committee
- WHO/WMO Online Climate and Health Science Portal, Heat Focused Community
- Webinar in June/July to update on progress and announce the location for the second forum

# Opportunities for GHHIN to leverage:

- HeatShield collaborating with WHO/ILO/WMO on evidence Review of Occupational Heat Risks
- WHO/Euro evidence review and heat health action plan guidance update
- WMO Urban Climate and Weather Services – Pilot City Hong Kong
- Publish WHO Risk Communications Simulation Exercise
- Many more...
