<tr>
<td>Capacity</td>
<td>Monitoring</td>
</tr>
</tbody>
</table>

We can prevent a grand majority of heat impacts, but we are missing opportunities to work together more, better, and faster.
WHO WE ARE

The Network is an independent, voluntary, member-driven forum of scientists, practitioners, and policymakers focused on enhancing existing efforts to address heat health risk.

Knowledge Broker
Go-to resource hub
Member-driven forum
Not a funding or grant-making mechanism

#HEATHEALTH
www.ghhin.org
WHO WE ARE

Government agencies / academic institutions / international organizations / NGOs / private sector and individuals in relevant fields

Diverse expertise and perspectives
Our members self-select, enhancing inclusion of a broad range of global organizations and professionals

Compatible motivation
The mission and values of our members are expected to be compatible with our vision.

Scientific integrity and shared principles
Members will be encouraged to uphold scientific integrity and principles of good public health practice.
OUR FOCUS

1. **Awareness**
   Urgently improving awareness of the disaster that increasing extreme heat poses to human health, wellbeing, and productivity worldwide.

2. **Partnership**
   Catalyzing and sustaining interdisciplinary partnerships and co-learning between research and practitioners across relevant government, academic, private sector and civil society bodies.

3. **Synthesis**
   Synthesizing and advancing science and technology available for decision making and risk reduction across sectors and time scales.

4. **Expertise**
   Improving access to expert resources and opportunities for learning, exchange, and engagement.

5. **Leadership**
   Identifying and promoting action to address critical gaps in research, knowledge and action.
KEY ACTIVITIES

We help improve the **knowledge** and **capacity** of governments, organizations, and professionals to protect populations from the avoidable health risks of extreme ambient heat.

By bringing together the work and progress of its members we help create a more holistic picture of the needs, science, and strengths across the network.

Moving toward regional communities, new partnerships, and affiliated research and technical products.
South Asia Heat Health Summit
February 2020

Hot but Habitable, Lorentz Center
March 2020

Heat and COVID-19 Information Series
May 2020

Heat Health Masterclasses June-July 2020

GLOBAL HEAT HEALTH INFORMATION NETWORK

#HEATHEALTH
www.ghan.org
New website launching in August

New and improved features:

- heat health resource library and learning
- Easy to use tools and services directory
- Focus areas: work, urban, sports, etc
- Inventory/maps of heat health action plans case studies
- Expert and projects directory
- [coming soon] action platform / directory of evidence and evaluation of interventions
Open Global Forum

Masterclass Series

Upcoming Fall series

1. Urban Heat Island Mapping Methods
2. Heat Indices and WGBT
3. Heat Physiology
4. Understanding heat vulnerability and inequity

3rd Global Forum on Heat and Health (2021/22)

HEAT HEALTH DIALOGUES

HEAT IN THE WORKPLACE
Heat in the Workplace - Activities on the horizon

GHHIN Website Resource Section: “Heat in the Workplace” featuring urban focused case studies, resources, and key issues.

New GHHIN “Open Forum” Discussion Calls: Monthly global call-ins to take a deeper dive on specific issues that will inform the GHHIN action agenda and encourage coordination and learning.

New Training and Capacity Building Opportunities
- Masterclass on Worker and other themes
- Graduate, Post-doctoral and mid-career training/rotations

New technical activities and resources

Exploring new programmatic and research partnerships
- Scientific Committee on Thermal Factors, ICOH
- Project HEAT SHIELD
